

The NLP Practitioner Programme: Dates & Fees*

For Life-changing skills at work & play!

Secure your place on the NLP Practitioner Program 2010

Based on our research amongst past participants, we have redesigned our NLP Practitioner to both maintain our reputation for developing highly skilled NLPers, as well as to address the relevant specific professional applications that we know you are seeking. While most NLP Practitioner programmes retain a therapeutic focus, we have reorganized the NLP Practitioner Curriculum around key applications in Coaching and Leadership vital to management roles as much as to parenting! Choose a package that is right for you (see below) that ranges from 3 days duration to 6,9,12 or 15 days, and receive certification at each level.

- To ensure your individual attention as a participant, we insist on small groups. This means places are limited.
- Register for the whole programme now and you'll make additional savings on this value-added, life-changing experience!
