## Course Leader

**Anne Munro-Kua**

Anne holds a PhD from Manchester University, UK, and has had a 30 year career involving teaching, consulting, training and coaching internationally, with amongst others, universities, blue-chip

## Proven, Practical, Professional

### What is NLP?

Neuro-linguistic Programming is a systemic structured way of identifying the patterns of thought, language and behaviours that underpin outstanding communication and exceptional results. Recognised as the technology of human achievement, NLP gives us practical blueprints and methods for how to excel in almost any field, ranging from the intensely personal to that of large scale organisational development.

### Who Should Attend/Who Will Benefit

Extra-ordinary people, just like you: professionals, educators, managers, engineers, therapists, parents, head of departments, students all learn these generic and generative skills for achievement in their own specific situation.

### Why learn NLP?

By learning NLP you can acquire life-changing skills that allow you new choices and influence in your work, your life, your relationships and your career. In these uncertain times, NLP provides a generalized foundation for building your effectiveness, resilience and flexibility. And like many other NLPers, you too can achieve peak performance and well-being!

### Quality and value

We take pride in quality and thoroughness and we also know your time and budget are important. That's why we ensure you experience a full NLP curriculum with more than 120 hours classroom practice, as stipulated by the Guild of NLP and saving 5 full days of your time. And when you compare our fees you'll realize just what a good investment you've made!

### What happens in the programme?

Have you noticed how much more you learn and how easy it is when you are having fun...seriously! We design the NLP Practitioner to foster an atmosphere of curiosity

companies and not-for-profit organisations, always with a passion and competence in enabling others to stretch beyond their current perceived limitations. By maintaining her UK links as well as acquiring Eastern insights from having lived & worked in Asia for 20 years, Anne is equally at home in both the East and West.. ([more](#))

## Testimonials

*"The course was wonderful and Anne's guidance was wonderful! I had so many insights from practice of techniques I had previously only read about! I discovered abilities I never knew were there! "*

*"This workshop was exactly what I needed! Every topic I wanted to cover was included. The instructor is so knowledgeable and easy to follow"*

*"The trainer used real world knowledge and experience making the training more comprehensible and easier to grasp." [more](#)*

## Methodology

We design the NLP Practitioner to foster an atmosphere of curiosity and adventure in a safe, supportive space. You'll learn through demonstration, practical exercises, high quality feedback and dialogue. And you'll accelerate your learning and enjoyment through the latest brain-based physical techniques. We limit our class size, so that you get all the personal attention you need to develop the success that you want. As a member of a group, you have the opportunity of learning from others through 15 value-packed days.

and adventure in a safe, supportive space. You'll learn through demonstration, practical exercises, high quality feedback and dialogue. And you'll accelerate your learning and enjoyment through the latest brain-based physical techniques. We limit our class size, so that you get all the personal attention you need to develop the success that you want. As a member of a group, you have the opportunity of learning from others through 15 value-packed days.
